

## **News Update 5.1.21**

**Dear parents and carers, thank you for your support today.**

**We have spent the day teaching certain groups of key workers and some vulnerable groups of children. We are making contact with this second group of children as appropriate.**

**Please note that while we will endeavour to accommodate as many children as possible there are constraints within these groups and numbers.**

**At present, we are in the situation where we may have to offer a waiting list as we are reaching capacity.**

**Any support around working patterns is appreciated.**

**All staff have worked hard to arrange online teaching via Teams and SeeSaw.**

**We do not underestimate the challenges around home schooling but hope the resources are useful.**

**While we will no doubt encounter some issues, we will work with you to as best we can to solve these.**

**If you need codes etc please call the office to arrange. Again, this may take a little time to turn around but we'll do the best we can.**

**If there are technical issues, we will do our best to help but may have to take advice.**

**At present, our ability to support with hardware is very limited but we are investigating other sources for equipment.**

**Please try to follow the timetables sent on Seesaw to make learning as effective as possible.**

**Just to note that for the lockdown we are returning to normal school times of 9.40am to 3.20pm.**

**Please enter and collect all children from the main playground. Masks to be worn at all times.**

**Kindest regards,  
Paul Cross**
